

WI-IAFN Business meeting 05/18/16 1600

Report on account Sharain Horn.....Currently we have \$5000.00 in the account; we did not receive the DOJ grant. Not sure how much we are at for this conference so far. Sharain will get back to us on those numbers at our next conference call.

Presentation by Nicole Slusser WI-IAFN president.....We need to look into local funding for monies; there may be grants out there that we qualify for. Look into our own facilities to see if they have anything we can apply for. Encourage people to be a member of the WI-IAFN and the IAFN. Advertise the benefits of this. Annual Conference is less expensive and the multitude of resources such as education and tools to sustain your program and SART. Renne Wright brought up that PREA may have some money for the chapter for grants. Grants are very time consuming, we have to make sure that the grant would be write grants for us due to quarterly reporting. We should not rely on certain organizations for monies.

You asked we listened, communication improved due to social media creations, new website, twitter and new face book page. New website built with MN and Courtney. There are so many things going on in the state let Courtney or I know. Dee Krebs is the first IAFN president. She likes our website. Education, we have sponsored human trafficking, the evidence kit, new speakers, skills day and simulations. Starting a Bi-Annual Newsletter June and December, event highlights past and future program newsletter submissions and recognitions.

Development of a recognition subcommittee, volunteers to organize and manage a process that recognizes SANE nurses in our state.

We as board members will develop our role responsibilities so others know what we do.

Chapter connection with the IAFN's 2016 president Dee Krebs.

New Meeting Dates

September 8th and November 10th 2016locations TBD.

Adjourned 1644

Wisconsin Chapter of the International Association of Forensic Nurses

13th Annual Helen Kelly Forensic Conference

May 18th & 19th, 2016

Landmark Resort, Egg Harbor

The Helen Kelly Annual Forensic Conference is named after one of our leading pioneers of forensic work in Wisconsin. For more than 20 years, Helen J. Kelly was at the heart of caring for victims of sexual assault and has touched many lives in her career.

She worked as a sexual assault nurse examiner at the Sexual Assault Treatment Center at Aurora Sinai Medical Center. She also helped train forensic nurses and others in the community, including students at the Medical College of Wisconsin and recruits at the Milwaukee Police Academy.

Helen lost her battle with cancer in February of 2009. We find her spirit and devotion in all the amazing work we do today.
